ENTERPRISE ADVANTAGE

APPLICATION

We help you build solutions based on OrangeScrum to match and sync with respect to your business needs.

INTEGRATION

We can help you to integrate Orangescrum with your CRM platforms, or other tools that you and your organization uses.

DATA MIGRATION

We offer data migration service if the data is complex to Import. If you are using other project management software and want to migrate data to Orangescrum, we can help.

ADD-ONS

Create customized add-on, tailored to suit your needs and to extend your OrangeScrum's features and functions.

CUSTOMIZATIONS

We help customize Orangescrum the way you want it to be. Customize dashboard, custom reports/analytics and more.

SUPPORT & MAINTENANCE

We are here for you all the time to deliver complete support, 24 X 7. All the maintenance of your Orangescrum will be taken care by our Team.

FEATURES

Automated | Simplified | Accurate | Efficient

- Automatically track time spent on your tasks.
- Mark your billable and non-billable hours with Time Tracking Add-on.
- Quick Day, Week & Month views shows how your teams are occupied and also tasks to be delivered during the day and week.

Know availability | Plan well | Deliver more | Utilize right

- Deliver projects on time or ahead of time and gain Higher Customer Satisfaction (CSAT).
- Easily track which resource is overloaded and re-plan task assignments for quicker delivery.
- See which tasks were worked upon for how long by how many resources.
- Inbuilt SMART payment module ensures your "external teams" log time against their agreed work.
- Generate payment receipts just like Pay Slips and send to your freelancers and contractors.

Clarity | Communication | Collaboration | Efficiency

- Well defined task time lines and project schedule prevents unwanted delays and keeps the teams in sync.
- Any delays are identified easily and allows for quick preemptive measures with Gantt chart add-on.
- Easy Drag n Drop tasks.
- Task dependencies allows them to reach out and help each other to avoid delays

Track Expenses | Process Faster | Invoice Accurately

- Easily track project and non-project expenses.
- Choose from among "155 Currencies" for your Global Teams and Clientele
- Quick upload digital images of your bills/receipts as soon as you spend.
- Freedom from stocking manual receipts and fear of losing them.
- Submit expenses and track their approval progress.

Quick Connect | Collaborate Easy | Contribute More

- Create, plan and assign projects easily.
- Free yourself from email exchanges.
- Plan, prioritize and Manage your daily activities.
- Share & Receive progress in real time with your customers.
- Classify & Organize tasks in a meaningful manner.
- Stay connected, Stay in control, Stay ahead with The Orangescrum Project Collaboration Tool Mobile App.

FEATURES

EXECUTIVE REPORT AND DASHBOARD

Insightful | Actionable | Decisive

- Track your key project metrics - budget, timelines, and resource utilization in real time. Quick overview of your project portfolio at a glance.
- Strategic project insights for re-prioritization and reordering of your projects and tasks.
- Task Status and Type wise charts for thorough analysis and better task assignments.
- In-App notification and email alerts "15minutes" before "task start times" to boost your team's efficiency.
- All "Activities" feed & "To Do List" allows you to drill down to a specific resource's activity as well "Upcoming & Overdue" tasks.

ROLE BASED ACCESS CONTROL

Define Roles | Manage User Access | Superior Control | Increase Efficiency

- Define clear roles and responsibilities for a smooth functioning of your teams as well as the projects.
- Maintains privacy from higher to lower hierarchy.
- Easily share and grant access on a Need to Know Basis.
- Assign Specific roles to users for a particular project.

WORKFLOW MANAGEMENT

Define Project Flow | Improve Execution Cycle | Get Desired Outcomes

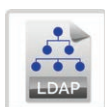

- Enables you to define multiple task statuses and progress% or task completion weightage.
- Define statuses in a logical meaningful flow that quickly tells your teams which TEAM holds the task and what is its progress.

INVOICING & BILLING

Accurate | Dependable | Actionable | Efficient

- Customized billing for your Clients - We understand that "customers" come in all sizes and have their own paying terms. Some may want role based rates, some a default hourly rate or a pre-fixed sum.
- Do it all with ease! Set easy recurrence for your invoices and have them automatically delivered to your Client's inboxes.
- Define roles for your projects and assign hourly rates to each role.
- Send invoices directly from Orangescrum as PDFs.

LDAP INTEGRATION

High Security | Reliability | Integrity

- Consolidate entire organizations information into a central repository to protect sensitive data from prying eyes.
- LDAP users can login with same USER ID and PASSWORD in the different application if the application is integrated with LDAP.

“Ease of use, very good customer service and an affordable price. We are using Orange Scrum for an year after a deep research for a good and affordable project management tool and we are sure now that we have chosen the right one. ”

Toni López Buxó | Development Manager, Limbic, Spain

“Orangescrum ensure over my projects in a way I did not find in any other platform. I have a great feeling about the evolution of the platform and new feature add-ons, Congratulation to all team. ”

Pedro Artur Oliveira | Manager, CAIXA Lda, Portugal

“Being Software Development Company we always look for tools, which can save our time and allow us to focus on our core tasks, Orangescrum is great fit for our needs and ticked all boxes. ”

Anil Kumar | CEO, Saral Technologies, India

“We can highly recommend this software to anyone needing a project management software with an easy to use interface and clearly presented lists and work flows. Orangescrum increased our project management efficiency dramatically. ”

Brent Kerr | CEO, Kewico GmbH, Switzerland

“OrangeScrum is nice proposition as an excellent value for money in terms of open source project management tool. Easy to work with OrangeScrum team as they are always available and ready to help with any queries or difficulties in terms of solution. ”

Sadanand Walte | Delivery Head, Technex Technologies, India.

“This is a simpler project management software that is easy to use with a great customer service team. The price is super low and the layout is very intuitive. ”

Chelsea Huckabay | University of Central Arkansas

“We Chose orangescrum because of Orangescrum's rapid response to our questions and concerns as we were testing out system. We appreciate the support and truly feel like we have a partner assisting us with our project management system. ”

Jamie Smith | Director of Marketing Automation, SFCG, Austin

“OrangeScrum has all necessary features for project control, is user friendly, easy to use and free source. You can upgrade the system with a lot of extra premium features for your daily work. The customer support team is great and experienced. ”

Elmar Becker | Media Designer, Openpix

“The most beautiful thing about Orangescrum is an easy approach to all cumbersome tasks which makes it a lot simpler to use. Orangescrum makes a complicated project way easier to run within my team. ”

Kuda Msipa | CEO, Cutmec Group, Bristol, United Kingdom
